

ALEX MORGAN

+00 000 000 0000 | alex.morgan@example.com | Dublin, Ireland

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 6+ years of experience building TypeScript, React and Node.js products on AWS for fintech and e-commerce teams. Strong in turning manual operations into reliable automation, designing clean APIs and shipping end to end with a focus on performance and testing. Most recently cut loan processing time by 70% for 40,000+ monthly applications.

KEY SKILLS

- | | | |
|---------------------------|--------------------------|-------------------------------|
| ▪ TypeScript & JavaScript | ▪ AWS Lambda & ECS | ▪ System Design & Code Review |
| ▪ React & Next.js | ▪ CI/CD & GitHub Actions | ▪ Jest & Playwright |
| ▪ Node.js & NestJS | ▪ PostgreSQL & MongoDB | ▪ RPA & Web Automation |
| ▪ REST & GraphQL APIs | ▪ Docker & Terraform | ▪ Agile, Scrum & UAT |
| ▪ HTML, CSS & Tailwind | ▪ Redis & SQS | ▪ Git & GitHub |

PROFESSIONAL EXPERIENCE

NORTHWIND LENDING – Dublin, Ireland

Senior Full Stack Engineer

Mar 2023 – Present (2 yrs 8 mos)

A digital lender serving small businesses across Europe; joined as the fourth engineer to own the loan application platform.

- Automated **70%** of manual underwriting checks with Node.js workflows, cutting decision time from 2 days to 4 hours.
- Rebuilt the React application form for 40,000+ monthly applicants, lifting completion rate by 18%.
- Moved 12 services from EC2 to AWS Lambda and ECS, reducing hosting cost by **€3,200** a month.
- Introduced Playwright end-to-end tests across 9 critical flows, halving production incidents within two quarters.
- Designed a GraphQL API for 6 partner banks, replacing nightly CSV exports with real-time loan status updates.
- Led UAT with 4 operations teams in two-week Scrum sprints, closing 95% of feedback before each release.
- Added Redis caching to credit-score lookups, cutting average API response time from 900ms to 120ms.

BRIGHTCART – Remote

Software Engineer

Jun 2020 – Feb 2023 (2 yrs 9 mos)

An e-commerce platform for independent retailers; part of a six-person product team.

- Shipped a Next.js storefront used by 1,500+ shops, improving page load speed by 45%.
- Designed a PostgreSQL order pipeline processing **2M+ orders** a year with zero data loss.
- Mentored 3 junior developers through code review and pairing, all promoted within 18 months.
- Containerised 8 services with Docker and Terraform, shrinking release time from 1 hour to **10 minutes**.
- Integrated Stripe and PayPal checkout for 1,500+ merchants, reducing failed payments by 30%.

TASKFLOW SOLUTIONS – Cork, Ireland

Junior Software Developer

Sep 2018 – May 2020 (1 yr 9 mos)

A process automation consultancy; built RPA and web automation for insurance and logistics clients.

- Built 25+ RPA workflows with Node.js and Puppeteer, saving clients 1,200 staff hours a month.
- Automated claims data entry across 3 insurer portals, lowering error rate from 8% to under 1%.
- Created an internal dashboard in React tracking 50,000+ automation runs a month for 12 clients.
- Wrote Jest test suites for 15 automation scripts, raising test coverage from 20% to **85%**.
